**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I don't having only two choices for internet carriers is healthy for the consumer or a competitive and fair business environment.

I also don't want my internet to be controlled either for its speed or who /what sites I can visit.

I don't want price hikes that will increase cost of internet services-just because they can charge more with no justification.

I think fiber optic is a much better solution than DSL and should be implemented wherever possible-local boradband is needed.

I also have a VOIP telephone service that is much more affordable and all this things will not be possible if the large tier one providers control markets.

Thank you.

Mike Kent
